

Amani Tours Health Protocols

- Enhanced sanitation, disinfection, and deep cleaning practices for coaches and other vehicles.
- Focused cleaning on high-frequency touch points, including handrails, door handles, tables, onboard toilets, air conditioning filters, overhead lockers and headsets.
- Pre-allocated seating plans with no rotation.
- Limit physical contact and queuing where possible.
- Explore staggered timing for access to venues, hotels and restaurants among others.
- Health, sanitation, disinfection and hygiene and food safety protocols at partner restaurants.
- Establish with partners and suppliers including shops, showrooms, tasting venues/shops, museums, shows theatres, concert halls, factories and farms, that they follow likely protocols.
